CAIN CATTLE COMPANY

Dear Friends and Guests,

Thank you for your interest in Cain Cattle Company and welcome to the ranch here in Pickens, MS.

Cain Cattle Company has focused on breeding the best available genetics in the beef industry for more than 30 years and has long been recognized for quality genetics. Our quest is constant identifying germplasm with genetic reach, power, and desirable traits to make lasting contributions to the beef industry. By identifying and blending the best available genetics we continue to build on this long standing tradition.

All the bulls in this sale are 18 plus months of age with many bulls over 24 months of age. They are sound functional bulls ready to turn out.

A special feature this year is a number of sons from the breed legend, donor dam MS BRINKS ALI 803M. Nearly 15 years of age she's as sound as cows half her age and still actively producing embryos. It takes a lifetime to produce cows like 803M who are exceptional in structural soundness, udder quality that leave great herd sires and donor dams. The 803M cow shows up in the most sought after pedigrees in the Brangus breed. The dam of Griese of Brinks 803R27 and CCC Intrepid, here is your chance to put the influence of the 803M cow into your breeding program.

If we can assist you in any way prior to or after the sale please contact us, we will be pleased to assist you in any way we can.

We look forward to seeing you October 14, 2017 here in Pickens, MS.

At Cain Cattle Company – Beef is our business.

Sincerely,
Ted, Julie, Logan and Evan Cain
